

STAFFAGGI FIXING

Catalogo Catalog **2026**

Nata dal sapere tecnico di **UNICKA**,
questa divisione rappresenta una **nuova visione** del costruire.
 Unisce precisione ingegneristica e senso pratico,
 trasformando profili, mensole e materiali di fissaggio
 in **soluzioni che danno forma alla solidità**.

In ogni dettaglio costruttivo si riflette una filosofia chiara:
 creare struttura significa **creare connessione, equilibrio e durata**.

Ogni progetto nasce dal bilanciamento tra competenza e
 innovazione, tra la forza dei materiali e la cura dei dettagli.
 Con radici in Italia e uno sguardo rivolto al mondo,
 è la base su cui **costruire affidabilità, oggi e domani**.

Born from **UNICKA**'s technical expertise,
 this division embodies a new vision of construction.
 It combines engineering precision with practical insight,
 transforming profiles, brackets, and fastening systems
 into solutions that give shape to strength and reliability.

In every structural detail, a clear philosophy emerges:
 creating structure means creating connection, balance, and durability.
 Every project is built on the harmony between expertise and innovation,
 between the strength of materials and attention to detail.

Rooted in Italy and driven by a global outlook,
 it provides the foundation for building reliability, today and for the future.
